

PSYCHOLOGY (PSYC)

PSYC 101 Introduction to Psychology

Introduction to the processes, principles, and problems and applications of psychology. Topics include the brain and nervous system, sensation and perception, consciousness, learning and memory, personality, social psychology and psychopathology. 3 credits.

PSYC 355 Media Psychology

In this course, students will consider the interrelationship between media and psychology. They will examine the effects of various forms of media (such as social media, television, and music) on human behavior and cognition. They will also consider how human thought and behavior affect individual and group use and consumption of media. Students will have an opportunity to apply media psychology theories, concepts, and methods to real world situations. 3 credits.
