

SPANISH (SPNU)

SPNU 100 Survival Spanish: Culture and Language for Healthcare Professionals

This course is designed to provide basic Spanish communication skills and an understanding of Latino culture for Health Professionals. Students will explore the history and culture of the monolingual Latino population. They will also learn and practice necessary language skills to communicate with Spanish speaking clients in the health care environment about health-related issues. No previous Spanish language experience is required. This course is only offered through the School of Extended Education. 3 credits.

SPNU 120 Spanish for Educators

This course is designed to provide educators with basic knowledge about the Latino culture, Spanish vocabulary and phrases necessary to communicate with parents and students on a very basic level. Students will explore the culture of the monolingual Latino population. They will also learn and practice necessary language skills to communicate with Spanish speaking students and parents. No previous Spanish language experience is required. 3 credits.
